

Imagine the Possibilities Expansion New Galleries

The new galleries are filled with playful hand-on, minds-on experiential learning that engages children and caring adults. Playful learning is vital to a child's intellectual, social, emotional and physical development.

WOODLANDS ADVENTURE & CANOPY GALLERY

At the heart of the gallery is a walk-through tree inspired by the historic Snohomish bicycle tree. Adventures abound, allowing bold explorers to use their *imaginations* to camp, fish, boat, hike and observe local wildlife. Kids take on the role of veterinarians in the Wildlife Animal Rescue. A climb from the forest floor leads to new adventures. Kids use their physical skills to navigate through bridges and passages in the tree tops. Lookout stations along the way provide observant climbers opportunities to learn even more about the woodlands.

- Wildlife Rescue Clinic
- Campsite
- Fishing Pond
- Wildlife Puppet Theatre
- Historic Bicycle Tree
- Log Balance Adventure
- Bird House Station
- Fire Lookout Station
- Bigfoot Research Station
- Rope Bridge Challenges

DISTRIBUTION GALLERY

Become a logistics engineer in this dynamic exhibit. As packages come and go on conveyance systems around the gallery, kids learn what it takes to get a package from Imagine to anywhere in the world by scanning packages, selecting destinations and determining the most efficient mode of transportation.

- Forklift & Hand Trucks
- Package Conveyor Station
- Package Drop Chute Station
- Package Gravity Twist Chute Station
- Cargo Markings & Load the Container
- Distribution Package Processing Center
- World Time Zone Clock & Transportation Modes Screen
- Imagine Freight Lines Container Walkway

**“Play is the highest form of research”
- Albert Einstein**

ENGINEER IT! ROTATING GALLERY

Budding engineers can test their critical thinking and problem-solving skills while building towers, flying machines and ever-changing projects.

Rotating Engineering Challenges:

Maxamec - Brackitz - Snow Blocks - Wind Tunnels

ECOSYSTEMS GALLERY

Kids become marine ecologists while exploring an intertidal aquarium, watershed table and real whale bones from gray whales that pass through local waters on their annual migration.

- Gray Whale Encounter & Migration Map
- Sea Life Discovery Center
- Intertidal Aquarium
- Biome Sand Table
- Ecosystem Stop Motion Animation Stations
- Salmon River Run
- Tot Spot Seashore

IMPORT, EXPORT, OUR PORT GALLERY

Features Everett's very own international water port, highlighting the vessels that serve it and the roles they play in moving goods around the world. Interactive stations allow kids to experiment with weight, balance, buoyancy and loading. Kids can become a tugboat captain by taking the helm and piloting Imagine's 20-foot tugboat.

- Tug Boat
- Bridge Station (*Breakbulk*)
- Balance Station (*Container Ship*)
- Weight & Buoyancy Station (*Log Ship*)
- Capacity Station (*Ro-Ro Ship*)
- Port of Everett Mural

CREATIVITY CENTRAL GALLERY - ART STUDIO & MAKER SPACE STUDIO

Imagine's Maker Space and Art Studio gives every child the freedom to tinker, create and construct – experiences that are often not possible at school or home ... they'll use real tools of the trades to thrive as artists and innovators.
