GRANDfamilies Free Museum Access and Workshops

This time is dedicated to families who are being raised full time by a grandparent or other extended family member.

1st Sunday of the Month
July 3 • August 7 • September 4
9:00 - 11:00 a.m.

- Connect with other kinship families
- Free Museum access and playtime
- Fun child workshops for children ages 4-12* where they can develop social-emotional skills while learning to code their own ROBOT to keep for extended fun at home!
- Informative caregiver workshops that offer support and resources on parenting, child development and building resilience through trauma

Sponsored in part by:
Institute of Museum and Library Services

REGISTER ONLINE at www.ImagineCM.org/grandfamilies

SMALL BLOX

4TH OF JULY
FUN FOR KIDS!

Amazing science and engineering for the whole family.

Art Rocks! Visit our Art Studio and see why “Art Rocks!” at ICM! These fun activities are FREE with the price of Museum admission:

**July**
- Wednesday, July 13: Popscicle Painting
- Sunday, July 17: Ice Cream Trucks
- Thursday, July 21: Shrink-O-Ram-A
- Thursday, July 28: National Soccer Day: Mini Foosball games

**August**
- Sunday, August 7: Tropical Bird Mobile
- Friday, August 19: World Photography Day: Create a Collage
- Wednesday, August 24: Beautiful Butterflies
- Sunday, August 28: The Friendship Tree: A Collaborative Art Project

**September**
- Sunday, September 4: Circus Tents
- Saturday, September 10: Autumn Leaves Project
- Wednesday, September 21: Sunflower Collages
- Wednesday, September 28: 3-D Apple Tree

The Art Studio is open during most Museum hours, although we may close from time to time for a special activity or as a result of staff needs.
“More than 50 years of research finds that family engagement is one of the most powerful predictors of children’s development, educational attainment, and success in school and life.”

- Global Family Research Project

More space means more fun in the fresh air! Physical play is essential for young minds and developing bodies. Through physical play on our expanded, accessible, soft surface space, children can develop critical motor and social skills as well as the countless benefits of an active lifestyle.

The Wildlife Clinic is preparing for new patients, and future veterinarians! Through pretending to rehabilitate wild animals, children will explore medicine, biology, and wildlife ecology. These exciting STEM careers will offer children opportunities to create a greener future.

It’s a bird! It’s a plane! It’s whatever you can imagine! By designing, creating, building, and improving, children can explore the engineering process in this 12-foot-tall wind tunnel. Work together and creatively problem solve to get designs all the way to the top!

What is this giant shipping container bringing to the Museum? Imagination and learning, of course! In the Imagine Worldwide Distribution Center, children will explore what it takes to move goods around the world and practice collaboration to solve logistical problems.

With over 20 species and 100+ animals, Imagine’s Shallow Sound Aquarium will provide children the opportunity to connect with seldom seen Puget Sound marine life. By observing and interacting with these animals, children will foster a sense of stewardship and empathy for their local marine environment.

What happens when augmented reality meets the traditional sandbox? An amazing way for children to explore geography, topography, and ecology through play, experimentation, and creativity! The possibilities are endless when science, technology, and playful learning work together!

Invest in the future of our children...
We have $4.9 million left to raise to bring these engaging exhibits to children and families in our community at a time when playful learning is needed now more than ever.

Together individuals, businesses, and foundations will be supporting CHILDREN, our future leaders.

To learn more or make a gift visit www.ImagineCM.org or call Nancy Johnson at (425) 478-0630.
